Msingi
School records for Africa

STARTER PACK · MSINGI MEANS *FOUNDATION* IN KISWAHILI

Every learner's progress, recorded properly.

Report cards in your country's own curriculum, fees that balance, and a portal for parents. On your school's computer, with or without internet. Here is everything you need to get started.

Kenya · South Africa · Uganda · Nigeria · Ghana · Tanzania · Zambia · Malawi · Rwanda · Zimbabwe · Lesotho · Mauritius · South Sudan

One system for the whole school, built for how African schools work.

Msingi keeps your learners, marks, report cards, fees and attendance in one place, and follows your country's own curriculum and grading. Every teacher, class and feature is included.

REPORT CARDS

Report cards in your curriculum

Marks, grades and comments the way your country does it, with positions only if your school prints them. A whole class printed at once, with exam analysis and merit lists.

FEES

Fees without the guesswork

Receipts, balances and statements. Match M-Pesa and bank statements to learners, and send fee reminders by SMS.

PARENTS

A portal for parents and learners

Logins your school issues. Fees, homework, notes, attendance and results, in English or Kiswahili. Parents can pay fees by M-Pesa straight to the school's own paybill.

OFFLINE

Works without internet

Everything lives on your school's computer. Encrypted backup off-site, and Msingi Cloud in a browser when staff work from elsewhere.

TEACHING

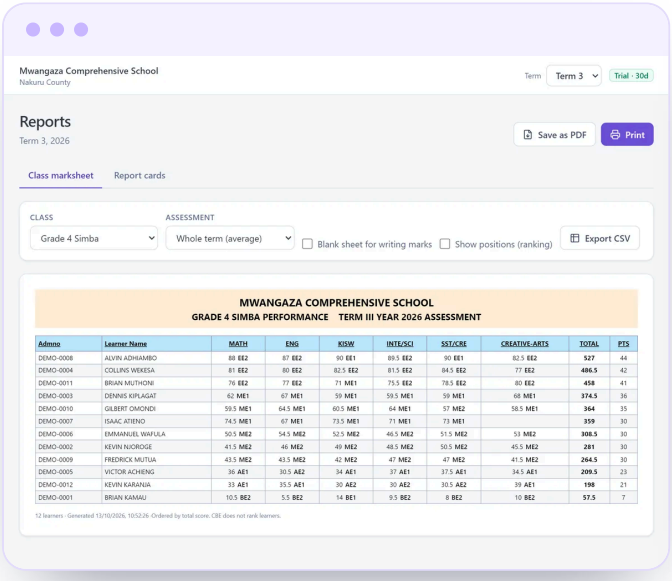

The CBE paperwork, done

Schemes of work laid out on your timetable, lesson plans that start filled in from them, and the head's sign-off, printed for inspection.

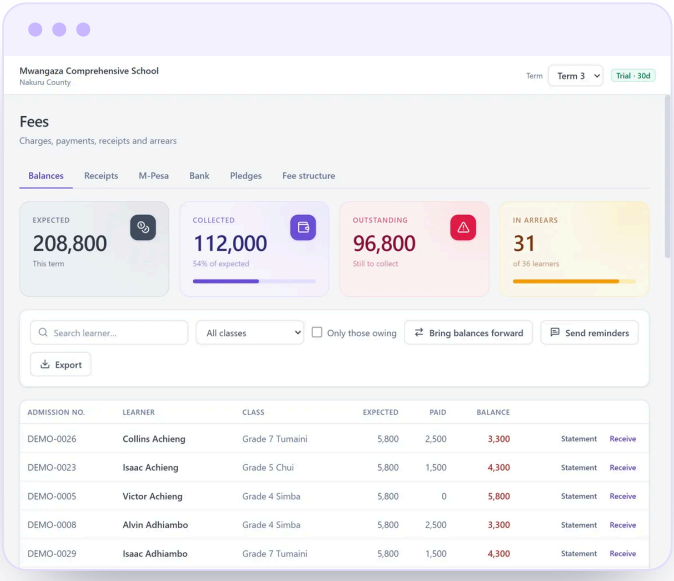

EVERY DAY

The everyday work

Attendance, a timetable with cover for absent teachers, class lists and certificates. Every member of staff signs in as themselves and sees only their own classes.

Marks entry for a whole class, with grades worked out as you type.

Fees: balances, receipts and M-Pesa matching in one screen.

02 · GETTING STARTED

Up and running in five steps.

Use Msingi in whichever way suits your school. One licence covers all three.

DESKTOP

On the school computer

For Windows 10 and 11. Works with or without internet; the records stay on your own machine.

www.msingischool.com/download

MSINGI CLOUD

In any web browser

The same records for staff on other computers, kept in step with the desktop both ways.

app.msingischool.com

ANDROID

On a phone

The Msingi app from Google Play, for heads, teachers and bursars on the move.

Search "Msingi" on Google Play

1

Install it, free

Download Msingi for the school computer, or create your school on Msingi Cloud. Nothing to pay to install or set up.

2

Set up your school

Add your classes, subjects and learners. If your class lists are already in Excel, send them to us and we will help bring them in.

3

Try everything

A free trial has every feature switched on: enter some marks, print a report card, record a fee payment.

4

Ask for your quote

Tell us roughly how many learners you have. We send one price for the whole school, for a term and for a year, usually within a working day.

5

Pay by M-Pesa, in the app

Open Licence, choose a term or a year, and pay. The school is licensed the moment the payment goes through, on every computer and on Msingi Cloud.

Prefer to be shown? Book a free walk-through.

About twenty minutes, at your school or on a call: set up a class, enter marks, print a report card.

WHAT YOU NEED TO START

A COMPUTER

Windows 10 or 11

Any ordinary school computer or laptop. For Msingi Cloud, any computer or phone with a web browser.

YOUR LISTS

Classes and learners

Names and admission numbers, on paper or in Excel. Marks can come later, whenever you are ready.

AN HOUR

To set up the school

Most schools are entering marks the same day. We are a WhatsApp message away if you get stuck.

Msingi
School records for Africa

The questions every head asks.

Do we need internet?

No. The desktop app works fully offline. The internet is only needed for updates, off-site backups, Msingi Cloud and paying for the licence.

Who owns our records?

Your school does. Backups are encrypted with your school's own key before they leave your computer, so not even we can read them.

What does it cost?

One price for the whole school, set by its size, paid by the term or the year. Every teacher, class and feature is included. Ask us for a quote.

What if we stop paying?

You are never locked out. You can still open, read, print and back up everything; only new entries wait until you renew.

Who sees what?

Each member of staff signs in as themselves. A bursar sees no marks, a teacher no fees, and a parent only their own children.

Will someone help us start?

Yes. We offer a free walk-through: in about twenty minutes we set up a class with you, enter marks and print a report card.
